No ships have been released from Quarantine thus far to-day.

As shown below, the reputed case of Asiatic cholera on Tenth avenue proves to have been a case of some other disease. There is no cholera in this city, say the officials.

There is a bot controversy between Secretary of the Treasury Charles Foster and Health Officer Jenkins, as to the transfer of the Normannia's cabin passengers to either Sandy Hook or Fire Island.

touth Dr. Jenkins's request to have the pes sengers removed to Fire Island instead of Fandy Hook.

Dr. Jenkins replies that he deems Fire Island much preferable to Sandy Hook as a refuge for cabin passengers, many of whom are delicate women and children, but if the Federal authorities insist he shall acquiesce

under protest. The Sound steamer Stonington, of the Stonington line, is reported to have been sesured for use in transferring passengers from

the infected ships. The Quarantine Commission has secured the cable asked for from Quarantine Station

to Hoffman and Swinburne islands, and has sions reached by Dr. Deshon, and he insisted engaged telegraph operators for each termimal point. The steamship Spree, of the North German

Lloyd line, arrived from Southampton lest evening, and was boarded at Quarantine this morning.

QUARANTINE, & I., Sept. 8.—Since the outbreak of choiers at this port there has not been a quieter morning at Quarantine, and but few vessels were off the boarding station. The steamship Scandia was due from Hamburg this morning with 901 passengers on board, and it was generally anticipated that she would come in with cases of the dreaded plague on board, and thus increase the im-

pending danger in the lower bay.
Two other ships, the Joseph John, a British tramp, and the somerbill, are also due. Both satled from Hamburg, the Joseph John Aug. 20 and the 8 methill Aug. 21. The former was due to touch at Bremen and Liverpool and the Somerhill comes via Havre.

Although neither of these ships carries passengers, the health authorities are watching losely for their arrival, and the vessels will no doubt be held for thorough inspection and examination. The mere fact that a ship comes from Hamburg is sufficient grounds for

An Evening Wonth preporter who made an early moraing 1719 down the bay was enabled to see by the aid of a giass, that the dreads; yellow flag had been run up on both the Rugia and Mormannia.

Last night Dr. Jenkine said that whenever a new case broke out on board either of the plague ships the yellow flag would be hoisted as a signal to the Quarantine tug Crystal water to transer the patient at once to swinburne island.

It this order was carried out this morning there are new cases on both the Rugia and Normannia.

At 10 o'clock this forenoon The Evening Wonth man stationed on the shore down the Bay noticed that the yellow flag had gone up on Hoffman Island, signifying that one or more new cases had developed there. Other ships due to-day are the Letimbro

His ponderous body, too, bears traces of easy living. His condition was not comparable with that of his op-

wear he had conserved his powers, perfected the methods and charged his heart with a confidence that he would become the king of his kind. His was a fine capital of brawn and muscle upon which to win the fortune of vio-

tory and reputation. It may not be carelessly said that Corbett at twenty-six years of age, is a better man than Sullivan was at that age; but, assuming they were equally good men as equal Jackson, Sept. 8.—The first election, per-haps, at which women ever voted in the the fact that while some men of thirty-four man to be the victor must not have added his own methods of depletion to those which the

Sullivan stepped confidently forward last night into the giare of twenty electric lights, his senses fed by the shouts of those who may disparage him now. Adulation from his kin had for years been his. The majority be-lieved in him. Why should not the Champion lieved in him. Why should not the Champion believe in himself? So, while they yelled with worshipping plaudits, he sat down in his corner and with easy interest scanned the powerful fellow opposite him

He saw a smiling and confident face. He saw a neck that had poise and strength. He saw a chest deep enough to hold a believe. He saw a pair of browned shoulders where piled up muscles crept and glided bene-skin at every movement. He behad stretched upon the ropes walls trains
